Taylor Electronic Services Inc. provides professional service to most makes and models of commercial and professional audio equipment. We are also an authorized warranty depot for the manufacturers listed below. We service customers from coast to coast in Canada. Our team of experienced technical staff provide our customers with friendly reception and professional care of their service requirements.

Wireless and wired microphones, keyboards, guitar amps, power amps, mixers (powered & unpowered), effects processors, lighting, guitar electronics, and speakers, are samples of the products we service and repair. Please give us a call to discuss your service requirements.
