Taylor Electronic Services Inc. (*and all of its' employees*) is committed to providing a high level of service and traceability. We adhere to and respect the policies and procedures provided by our clients and those generated by Taylor Electronic Services Inc..

We comply with all of the ideals and practices of ISO. We provide services to many ISO certified manufacturers and are routinely audited. We understand and regard the mission of ISO. Our test equipment is calibrated by Pylon and we hold calibration certificates for this equipment. We have in place a static control procedure, which includes routine testing and logging.

All of our Service work is logged in a proprietary database to ensure indefinite traceability and provide custom reporting as required. This database allows us to monitor trends and suggest our observations.

We work close with our Clients to ensure that we meet or exceed their expectations and help ensure the customer is aware of any quality issues. The staff at Taylor Electronic Services Inc. commits to having a friendly and helpful attitude in order to create a great working relationship with our clients.

Dave J. Taylor
President
